

Graduate HAZMAT Consultant

RED OHMS Group is a growing consultancy, with headquarters in Perth, specialising in providing asbestos consultancy, occupational hygiene, environment and training support and solutions for our industrial client base. We work smart, we're committed and we're keen to succeed. If this sounds like you, we would like to hear from you!

We are looking for a graduate with the skills and drive to develop into a professional Consultant who will gain experience in the following:

- Ω undertaking inspections for the presence of asbestos building materials and other hazardous materials;
- Ω conducting asbestos airborne fibre sampling in accordance with relevant standards or guidance documents;
- Ω undertaking visual clearance inspections following asbestos remediation;
- Ω supervision and project management of asbestos remediation;
- Ω technical report writing.
- Ω The role will provide the successful applicant a path to gaining an Asbestos Assessor's License or equivalent BOHS 'P' certification.

Additional role activities and further development areas may include:

- Ω general mine site environmental management;
- Ω air, water and noise monitoring and reporting; and
- Ω general scientific field work and reporting.

Minimum requirements:

- Ω attention to detail and the ability to maintain focus on the task in hand;
- Ω highly organised and great at planning work activities;
- Ω ability to be flexible with working arrangements, site travel according to client requirements;
- Ω willingness to learn, to guide and be guided;
- Ω enthusiasm and can-do outlook; and
- Ω be willing to engage with and contribute to a growing dynamic team.

Experience in any of the following would be beneficial but not mandatory:

- Ω member of the Australian Institute of Occupational Hygiene (AIOH);
- Ω conducting air/dust sampling in accordance with relevant standards or guidance documents;
- Ω conducting sampling for fibres, dust, heavy metals (e.g. welding fume) and volatile organic compounds;
- Ω use of scientific testing equipment
- Ω conduct health and hygiene risk assessments

Qualifications in a Science/ Environmental discipline or similar is desirable.

If you fit this description for a role based in WA please submit your CV by applying through this site. Remuneration will be negotiated with the right candidate.
